Family name used at home Bowyer, Bow or Bow's. He will respond to all of them.

Bowyer was first introduced to St George's at 10 weeks old with the idea that the children could watch the growing process of a German Shepherd. Sadly, the lockdown in 2020 stopped that and we had to train him to work with children without children. Fortunately, his breeding and being carefully selected for his temperament paid dividends as his training was with Ray's Granddaughter Millie who also attends St George's.
