

Impact for PE

At the end of each year the pupils will:

- have experienced a broad range of physical activities and physical education lessons,
- have had the opportunity to use the skills they have developed in a variety of different sports and activities,
- have built on their own confidence and health.

Our lessons are accessible for all of our pupils and they are proud of what they have achieved. As the pupils progress through the school, they develop their own preferences within PE and Sport. Pupils also have the opportunity to take part in clubs, competitions and out of school events. The PE and Sport curriculum (PEHub) will contribute to the children's personal development in confidence, imagination, resilience and self-improvement. As a result pupils talk confidently within a group and some support other pupils during lessons.

Progress in PE and Sport is demonstrated through regularly reviewing and evaluating performances in lesson using pictures and videos to evidence. Teachers continuously monitor pupils skills and abilities over time and also track the physical educational knowledge of including health and the body etc. The lead conducts lesson visits and monitors pictures and videos. Formative assessment uses the National Curriculum and is recorded on BROMCOM.

Resilience is a key skill pupils develop through PE and sport, which supports them as they move through the school and beyond.
