

The Feeding of the 5000: Loaves and Fishes

Refreshing our vision after COVID

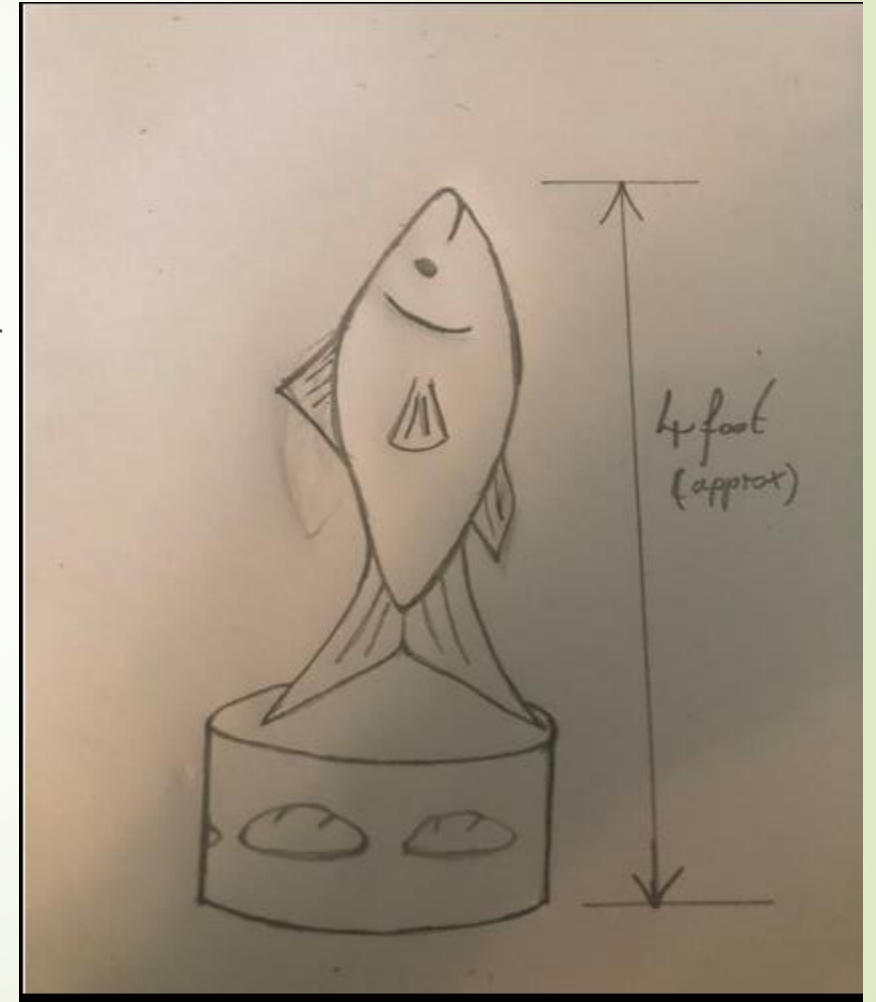

The problem...

- After COVID our fairly new Spiritual Garden had taken some hard knocks during its' life as an emergency playground for our year 6 bubble.
- Some of the areas had lost their magic and needed refreshing.
- The worship warriors helped to design a loaves and fishes sculpture to bring to life our school Bible story of the feeding of the 5000.
- A local sculptor helped put our ideas together.

The design

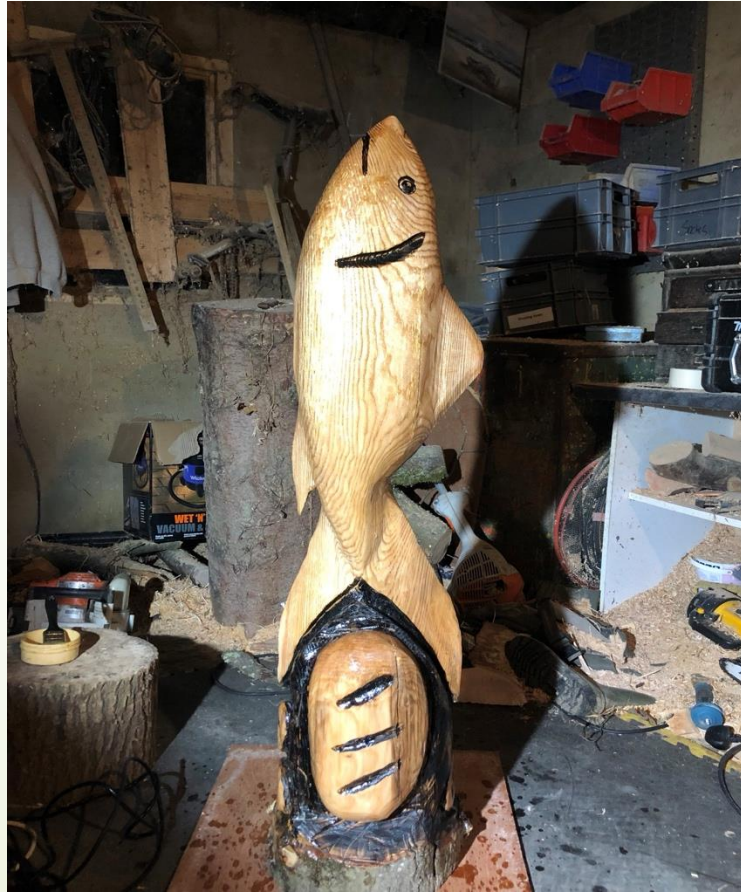

- The design was agreed and this became our final design to be made.

The wood carver started his job of making it from one piece of wood.

In the workshop

- We were sent regular updates about the progress of the piece of sculpture.

The day it arrived...

- We were then excited to see it arrive and be installed.
